

February 25, 2022

Dear CRJ Families and Students,

With students returning to in-person learning and resuming their internships, our school community's health and safety remains paramount. We want to ensure our community remains safe so that our students can safely enjoy the many exciting events and activities the second semester of school brings. As an added safety measure, **we will be hosting two more vaccine booster clinics at Cristo Rey Jesuit High School on Wednesday and Thursday, March 9 and March 10, 2022 from 1:30pm- 2:30pm in the Boardroom.**

The Pfizer vaccine will be offered at both clinics. Students are eligible to receive their booster shot if it has been at least **5 months** since they received the second dose of the Pfizer COVID vaccine. This is an update from the CDC who had previously required 6 months between the second COVID vaccine and booster shot.

Attached please find the Total Healthcare consent form for the booster clinic. Parents are not required to be present for their students to receive their booster, however, to enroll, **Sections 1 and 2 are required to be completed and sent to Nurse Tatum by Monday, March 7.** Completed forms can be emailed to me, faxed to 443-573-9884, or returned in-person to the school's front office. If your student has already received their COVID-19 booster, please email me documentation.

We strongly encourage all eligible students to receive their booster shot as it is the strongest defense against severe illness from COVID and its variants. Additionally, as the COVID pandemic continues to evolve, many of our corporate partners are updating their safety protocols, now requiring all employees, including our CIP interns, to have received their booster shot in order to continue working in the office. To learn more about the vaccine booster shots please click [here](#). If you have any questions regarding the booster clinic or registration please contact me at jtatum@crstoreybalt.org.

Sincerely,
Nurse Tatum
